## ARBORESCENCE

- Arborescence is our **first full dinnerware line for your tabletop**
- Inspired by the **Chefs' needs**
- Always **more technical innovations**
- **A design & contemporary line** with a strong and true identity
- A culinary porcelain created for both your **professional kitchen constraints** and **your table presentation**

## ALWAYS MORE TECHNICAL INNOVATIONS

Inspired by the **Nature**,  
Seeking **authenticity**

- 2 years of R&D to develop a **new mold technic** and the latest finishing and colors for our clays
- **Know-how** and **mastering** of design, material and glazing processes
- Printing the **ribs of the Nature** within the **very mold** of the pieces

## DESIGN AND CRAFTMANSHIP

Playing with clays and glazes, 3 colors and finishes:

- **Pepper** color: black clay & grey glaze to bring **contrast and personality**
- **Liquorice** color: Black clay & black glaze, a subtle interplay **between mat and shiny nuances**
- **Ivory** color: White clay & creamy glaze for a **sober, light elegance**

**Each piece is unique !**

It's crafted **manually** on the mold: we spray the glaze on the surface and brush the rim with a sponge to give a satin embossed designed effect

The **sense of detail** beyond expectations!

## A COMMITMENT TO THE PROFESSIONALS

- Culinary porcelain, **non-porous**, it doesn't scratch, nor craze. Each piece is **entirely glazed inside**
- High **resistance to mechanical shocks** (thickness carefully designed)
- **100% food safe** with no footprint on the environment
- Products were tested with Chef **Regis Marcon**. His love for Nature and his culinary expertise bring the final touch insuring both **aesthetics and functionality**
