HEALTHY COOKING

Food flavors preserved

While cooking with the REVOLUTION 2 lid, humidity preserves the nutritional qualities and taste of your food.

Your healthy ally

REVOLUTION 2 is nonporous, it does not release any chemical substances in the food and it does not alter flavours.

Protective ceramic

Made of a natural insulating material that protects food from the aggression of heat, there is no fabrication of unhealthy components.

Natural non-stick finish

Enjoy healthy food with little or no fat thanks to its naturally smooth surface.

Mineral material

The product is entirely made of carefully chosen natural materials. Does not contain chemicals or heavy metals. The materials are ecological and durable.

Made in France

Handmade and fired at a very high temperature in our workshops, in the heart of Saint-Uze town in France, every cocotte is tested before it is placed on the market.

« **EVERYONE IS CRAZY ABOUT MY RISSENGRØD** »

I learned to cook with my mother and grandmother, whose recipes inspire me daily. My revolution is slow cooking my famous rice pudding for my family or my handball league mates! My cocotte is perfect for all slow-cooked recipes, which it never burns!

Mette, Danish mother.
