

Solstice

SOLSTICE

The collection was designed to reconnect with traditional techniques of casting and to create authentic, unique and high technicality presentation plates

- A collection seemingly honed out of the earth: mineral-effect texture, uneven natural shape and black clay
- Shapes and patterns made using traditional casting techniques
- Irregular shapes showing the work of the human hand. Deliberate imperfections and uniqueness of each piece
- Artistic research into decors and finishes
- Straight-edged trays > hand-softened angles
- The trays are reversible, with thickness adapted to a “podium” effect
- Reversible bowls in the spirit of the gourmet pebble

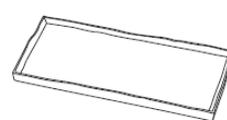

SOLAR STORM

- Molten enamels: a unique effect, different on each piece
- A presentation tray, an appetisers piece, a decorative object

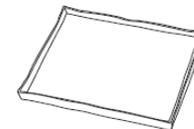

- Oven**
- Microwave**
- Dishwasher**
- Salamander grill**
- Freezer**
- Non-porous**
- Food grade**
